**End Application:**

THIR-DE-CHE-LONT

**Special Features:**

6provides stby 5v for system-wide usage; controls all fixed power modules across backplane; monitors ac and dc input voltages and currents; controls input voltage mode led's; provides rs-485 communication to external environmental monitoring circuitry

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T228-b
