

View Online at <https://aerobasegroup.com/nsn/6625-01-496-2842>

Special Features:

150khz to 1300mhz frequency range; measures modulation and recovers the modulation signal; determines rf frequency and measures rf power; can use external power sensors; can count audio frequencies and measure distortion on 400mhz and 1khz signals; fully automatic; has the ability to make adjustment-channel power measurements or carrier-noise measurements; has 25.0khz adjacent channel filter and carrier noise filter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
