**Current Type:**

Ac

**Ac Voltage Rating:**

115.0 volts and 230.0 volts

**End Application:**

B-2 bomber aircraft atb

**Display Type:**

Light emitting diode

**Display Digit Quantity:**

6

**Special Features:**

Complete process panel meter, red led display, four npn open collector transistors, no analog output, no serial output, range 4-20 ma

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A532n0
