Circuit Current For Which Designed:

Dc

End Application:

Weapon system: los angeles class ssn

Indicator Type:

Digital display or bargraph

Installation Design:

Panel

Operating Voltage Rating In Volts:

28.0 dc

Special Features:

End item: secondary propulsion system control panel

Style Designator:

Round surface mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
