**Circuit Current For Which Designed:**

Dc

**End Application:**

Weapon system: los angeles class ssn

**Indicator Type:**

Digital display or bargraph

**Installation Design:**

Panel

**Operating Voltage Rating In Volts:**

28.0 dc

**Special Features:**

End item: secondary propulsion system control panel

**Style Designator:**

Round surface mtg

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A310a0
