Overall Length:

20.000 inches

Overall Height:

3.500 inches

Overall Width:

19.000 inches

End Application:

Nimrod r mk1

Accessory Components And Quantity:

Power supply 1; power switch 1; power cord 1

Voltage In Volts And Current Type:

264.0 ac

Special Features:

Built-in remote interface and cpu; four position module bay for g2 plug-ins; remote interface types gpi (ieee-488) , rs-232c, rs-422a and rs-485; front panel led back-lit keypad controls; rack mount design; high contrast vacuum-fluorescent display

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
