Unit Type:

Vertical plug-in

Special Features:

Mfg name: digital word generator assembly; c size vxi module; assembly consists of: sr192-1, programmable digital test module; sr105, dynamic i/o module; sr107, static i/o module; used on rsts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-b
