Mounting Type:

Portable

Overall Length:

1.500 inches

Overall Height:

5.700 inches

Overall Width:

3.800 inches

Current Type:

Dc

End Application:

Nsn 2350-01-448-0368 bradley fighting vehicle

Internal Battery Accommodation:

Included

Voltage Rating:

9.0 volts

Product Name:

Handheld ntsc generator

Special Features:

Video pattern color bars: white, yellow, green, cyan, magneta, red, blue and black; crosshatch 15 vertical x 11 horizontal white lines on black raster; dot 15 vertical x 11 horizontal white dots on black raster; centering box on screen; interlace and progressive scanning system; white window on black background; rf output ch 3 equals 61.25 mhz crystal controlled; impedance 75 om; stabili type 50 ppm; sound 4.5 mhz +/- 0.2 percent modulated by approximately 1 khz audio tone, switch selectable; operating temp 32 to 122 degrees f; power 9v battery or ac adapter (be-12); indicators: power switch, power indicator, function indicator; progressive/interlace switch, video pattern, battery low; ac adapter jack

Supplementary Features:

FORA-RM-YPU-RPOS

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-j
