Furnished Items:

Connector

Termination Type:

Clip terminal 1st end all conductors

Product Name:

Cable assembly, rf, testclips to bnc male connector

Voltage Rating:

500.0 root mean square (rms) operating voltage all conductors

Special Features:

Test clip material beryllium copper; bnc male connector material body and center contact brass; boot pvc insulation; cable shielded coax rg58c/u 0.195 od, pvc insulated; test clip finish gold plated; bnc male body tarnish resitant plated; center contact gold plated ; boot color black; cable insulation color black rg58; test clip insulation glass filled nylon; impedance 50 ohms ; temp rance 50 degrees c max

Precious Material And Location:

Center contact gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
