End Application:

Earts test station

Unit Type:

Vertical plug-in

Special Features:

Similar to p/n dbs9905-0707b except x10 & x100 attenuation are available on each channel. Hardware mod results in mod to software drive.

To differentiate modified hard ware from standard hardware designator hv is added to reference number. The dbs9905-0707bhv is a 2-channel digitizer with bnc connectors and scope calibration reference output. Input ranges on each channel are 50mv, 100mv, 200mv, 500mv, 1v, 2v, 4v, 10v, 20v, 50v. Mfr name waveform digitizer

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-b
