Circuit Current For Which Designed:

Ac

Frequency Rating:

60.0 hertz

Installation Design:

Bench

Power Source:

Internal

Measurement Range:

+0.9/+4.2 gigahertz all indicators single range

Operating Voltage Rating In Volts:

Between 120.0 ac and 240.0 ac

Product Name:

Meter, electrical frequency

Phase:

Two

Supplementary Features:

Type n female connectors; provides indication of resonance/ provide power changes: 0.9 ghz-1ghz 0.5 db, 1ghz-4ghz 1db, 4ghz-4.2ghz 0.5db; provisions for calibration w/out disassembly included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
