**Overall Length:**

5.000 inches

**Overall Height:**

1.600 inches

**Overall Width:**

3.600 inches

**End Application:**

Lav-m

**Product Name:**

Microstepping drive with integrated controller

**Special Features:**

Kpower input 24-75 vdc at 2.0 arms (motor dependent); rs232c serial communications interface; incremental encoder support for position tracking, stall detection, and position maintenance; computmotor x language

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
