Current Type:

Ac

Ac Voltage Rating:

208.0 volts and 480.0 volts

Frequency Rating:

50.0 hertz and 60.0 hertz

Contact Quantity:

3

End Application:

Rq-4a

Usage Design:

Motor order

Presentation Type:

Digital display

Display Type:

Light emitting diode

Product Name:

Phase-sequence indicator

Phase:

Single

Special Features:

Detects improper motor rotation, indicates phase sequence and open phases; lead length: 18 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A534h0
