Width:

16.500 inches

Length:

17.000 inches

Ac Voltage Rating:

Between 115.0 volts and 230.0 volts

Frequency Rating:

Between 47.0 hertz and 63.0 hertz

Electrical Power Source Relationship:

Operating

Inclosure Feature:

Single item w/housing

Test Type For Which Designed:

Electrical safety compliance

Operating Test Capability:

500 va ac hipot testing along with 6 kv dc hipot and insulation resistance testing through a single dut connection

Product Name:

Fully-automated dielectric analyzer; multi-function electrical safety compliance analyzer

Phase:

Single

Special Features:

Voltage is user selectable; 6.3 amp 250 v slo-blo fuse

Functional Description:

Performs 500 va ac hipot testing along with 6 kv dc hipot and insulation resistance testing through a single dut connection; best suited for automated applications that require 500 va testing; can be used as a bench top tester or as a pc controlled system used in tandem with associated research autoware control software

Height:

5.800 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-a
