Overall Length:

1.210 inches

Overall Height:

1.210 inches

Frequency Rating:

12.4 gigahertz

Power Rating:

1.0 watts average

Output Quantity:

2

Product Name:

Power divider

Special Features:

Two way broadband power division; broadband resistive type; symmetrical loss and phase balance; rugged construction

Terminal Type And Quantity:

1 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A512n0
