Overall Length:

12.600 inches

Overall Height:

5.800 inches

Overall Width:

16.700 inches

Ac Voltage Rating:

Between 102.0 volts and 264.0 volts

Dc Voltage Rating:

24.0 volts

Frequency Rating:

Between 47.0 hertz and 63.0 hertz

End Application:

Sea king flight simulator

Installation Design:

Mobile

Recording Method:

Chart card

Channel Quantity:

8

Information Recorded:

Automotive testing

Product Name:

Data acquisition recorder

Special Features:

8 channels of modular inputs for any type of signal record direct to hard drive at 200 khz sample rate per channel; optional 4 channel, 10 mhz scope card for a total of 12 channels of acquisition; 15 inch touch screen for data viewing, review and analysis; dedicated 18 gbyte hard drive for data capture and integral ethernet interface to capture data and upload it to your pc for data analysis

Supplementary Features:

Color display active matrix color lcd, tft, 15.0 inch diagonal, 1024 x 768, full-screen resistive; 8 maximum modules; 8 maximum waveforms; calibration semi-automated to external reference; 8 inputs 9 pin d shell; input type ttl with pull up, 0 to 5vdc; response detects if duration is greater than 0.005 msec; maximum sample rate 200,000 samples/second each channel, all channels; 1 sample/minute; dual sample rate; over 8 billion samples; time and date automatically saved with data; power factor 0.99; power consumption 150 w max, 110 w typical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T198-a
