

View Online at <https://aerobasegroup.com/nsn/6625-01-524-9399>

**Special Features:**

0-5 degrees c operating temp; 100-250 vac; 4-63 hz; input current: 4.2 a at 100-127 vac, 2.2 a at 200-250 vac; 440 va input; 38 a inrush current; operates with full stability down to zero volts; built-in waveform generation with programmable amplitude, frequency, duty cycle and slew rate; over-current, over-voltage, over-power, over-temperature and reverse polarity protection; electronic calibration; vxi plug and play drivers; trigger for external synchronization

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
