Frequency Range Rating:

+9.000/+200000.000 kilohertz

Internal Battery Accommodation:

Not included

Output Impedance Rating:

50.0 ohms

Crystal Controlled Feature:

Not provided

Product Name:

Synthesized signal generator

Special Features:

High stability timebase; 90 to 264volts; 0 to 50 degrees celesis operating temperature; less than 10 ns rise/fall times; 0.1 per cent resolution

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-j
