**Frequency Range Rating:**

+9.000/+200000.000 kilohertz

**Internal Battery Accommodation:**

Not included

**Output Impedance Rating:**

50.0 ohms

**Crystal Controlled Feature:**

Not provided

**Product Name:**

Synthesized signal generator

**Special Features:**

High stability timebase; 90 to 264volts; 0 to 50 degrees celsius operating temperature; less than 10 ns rise/fall times; 0.1 per cent resolution

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T320-j
