Overall Length:

10.236 inches

Overall Height:

2.362 inches

Overall Width:

5.669 inches

Dc Voltage Rating:

12.0 volts

End Application:

Ground support equipment

Internal Battery Accommodation:

Included

Product Name:

On site tester calibrator

Special Features:

5designed for checking equipment in telemetry loops, ie., sensors, transmitters, positioners, convertors and controllers; maximum permissible common mode voltage is 250 v rms; alphanumeric display; stores up to 1000 measurements in one or more bursts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T263-c
