Dc Voltage Rating:

9.0 volts

Frequency Rating:

Between 100.0 hertz and 120.0 hertz

End Application:

Se for f/a-18/e afct

Internal Battery Accommodation:

Included

Product Name:

Inavy)bridge capacitance

Special Features:

Standard accessories: test alligator clips, dc 9v battery user manual; operating temperature: 0 to 40degrees celsius; rs 232 interface; displays: l/c/r, display 1999, d/q, maximaum display 999; ranging mode: auto & manual

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-d
