Installation Design:

Panel

Frequency Response Range:

+1.000/+18.000 gigahertz

Power Source:

External

Product Name:

Calibrated coaxial noise source

Special Features:

Input power 28.0 volts dc at 30 ma

Style Designator:

Probe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
