**Installation Design:**

Panel

**Frequency Response Range:**

+1.000/+18.000 gigahertz

**Power Source:**

External

**Product Name:**

Calibrated coaxial noise source

**Special Features:**

Input power 28.0 volts dc at 30 ma

**Style Designator:**

Probe

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A310a0
