**Maximum Operating Temp:**

50.0 degrees celsius

**End Application:**

Automatic test equipment

**Product Name:**

Voltage divider

**Special Features:**

Shall be class 4 iaw mil-prf-28800; must not fail w/i 2000 hours at 95 percent statistical certainty; ratio range 0 to 1.0 of input for 1.0 terminal and 0 to 1.1 for 1.1 terminal; resolution of .1ppm w/7 decades; maximum voltage input 1000v on 1.0 input terminal and 1100v on 1.1 input terminal; maximum input power 10 watts on 1.0 terminal and 11 watts on 1.1 terminal

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A31500

**Mil-std (military Standard):**

Mil-prf-28800 spec.
