Ac Voltage Rating:

115.0 volts and 230.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Electrical Power Source Relationship:

Operating

Test Type For Which Designed:

Automated test probe for printed circuit cards

Product Name:

Access automated probing station

Phase:

Single

Special Features:

Max probing area: 15.3" x 12.9"; maximum component height: 2.375"; computer interfaces: rs232 and pci bus

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
