Overall Length:

18.000 inches

Overall Height:

7.000 inches

Overall Width:

16.750 inches

Frequency Rating:

Between 30.0 kilohertz and 3.0 gigahertz

Electrical Power Source Relationship:

Alternate operating

Indicator Type:

Cathode ray tube

Unpackaged Unit Weight:

77.000 pounds

Special Features:

Built in s parameter test test, 50 & 75 ohm solutions, superb accuracy, mixer testing, add swept harmonic measurements, built in 3.5 inch floppy disk drive parallel & serial ports

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T263-c
