Frequency Range Rating:

+95.0/+150.0 megahertz

Product Name:

Elements

Special Features:

Gold plated for high conductivity; interchangeable with other elements; nist traceabl (rf power) standards for accuracy; the 82000 series of coaxial dynamics plug-in elements are calibrated to exacting specifications to assure interchangeability with one another, and with any instrument in the 7/8 inch line size; the model 820e123 power is 2.5 watts and the frequency range is 95-150 mhz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-b
