Overall Length:

14.000 inches

Overall Width:

10.000 inches

Dc Voltage Rating:

12.0 volts

Overall Diameter:

6.000 inches

Internal Battery Accommodation:

Included

Installation Design:

Hand held and portable

Output Current Type:

Dc

Meter Type:

Ohmmeter and voltmeter

Product Name:

Insulation tester

Functional Classification:

Aa-1.3

Special Features:

Built in timer; locking test leads; battery indicator; automatic capacitance discharge; voltage measurement and warning; tests to 500gigaohm; weatherproof to ip54; test voltages of 500/1000/2500/5000vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-c
