End Application:

Auto test equipment/auto test systems

Special Features:

This item consists of (1) e8257d-ha1 performance signal generator, (1) z5641ak02 frequency divider, frequencyrange is 100khz to 2.6ghz, rf output impedance is 50ohms, output power of +13dbm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
