End Application:

Ro membrane skid 732-08071-000

Product Name:

Conduct, cell

Special Features:

Electrodes- 316 stainless steel, insulator- polytetrafluoroethylene, o-rings- epr

Special Test Features:

Conduct, cell sensor dev model cs-40 conductivity, cell with integral stainless steel junction box, monel and polytetrafluoroethylene wetted materials, 50 foot cable, cell constant= 1.0

Supplementary Features:

For use with myron I 75811, sensor development pn cs40-1.0-10ktc-316jb-monel-peek-50'-tl

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
