**End Application:**

Ro membrane skid 732-08071-000

**Product Name:**

Conduct, cell

**Special Features:**

Electrodes- 316 stainless steel, insulator- polytetrafluoroethylene, o-rings- epr

**Special Test Features:**

Conduct, cell sensor dev model cs-40 conductivity, cell with integral stainless steel junction box, monel and polytetrafluoroethylene wetted materials, 50 foot cable, cell constant= 1.0

**Supplementary Features:**

For use with myron I 75811, sensor development pn cs40-1.0-10ktc-316jb-monel-peek-50'-tl

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
