**Ac Voltage Rating:**

230.0 volts

**Frequency Rating:**

Between 47.0 hertz and 440.0 hertz

**Mounting Method:**

Bench

**Instrument Calibration Range:**

Output porm 19.999vdc

**Calibration Range Quantity:**

1

**Calibration Accuracy Rating:**

Porm 500uv at 25 ppm

**Special Features:**

European version; 1 mv steps; buffered output; low impedance; 25ma output current; front panel lever switches; 10 watt; led overload lamp; 36 pin gold plate connector; 300vdc isolation; black aluminum/anodize housing; noise shielding; 10 wt portable

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T263-b
