Ac Voltage Rating:

230.0 volts

Frequency Rating:

Between 47.0 hertz and 440.0 hertz

Mounting Method:

Bench

Instrument Calibration Range:

Output porm 19.999vdc

Calibration Range Quantity:

1

Calibration Accuracy Rating:

Porm 500uv at 25 ppm

Special Features:

European version; 1 mv steps; buffered output; low impedance; 25ma output current; front panel lever switches; 10 watt; led overload lamp; 36 pin gold plate connector; 300vdc isolation; black aluminum/anodize housing; noise shielding; It wt portable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-b
