Voltage Calibrator - Page 1 of 1

Ac Voltage Rating:
230.0 volts
Frequency Rating:
Between 47.0 hertz and 440.0 hertz

Mounting Method:
Bench
Instrument Calibration Range:
Output porm 19.999vdc
Calibration Range Quantity:
1
Calibration Accuracy Rating:
Porm 500uv at 25 ppm
Special Features:

European version; 1 mv steps; buffered output; low impedance; 25ma output current; front panel lever switches; 10 watt; led overload

lamp; 36 pin gold plate connector; 300vdc isolation; black aluminum/anodize housing; noise shielding; It wt portable **Shelf Life:**

N/a
Unit Of Measure:

Demilitarization:

Deminiarization

No ---

Fiig:

T263-b
