Voltage In Volts And Current Type:

200.0 dc

Product Name:

Rfi/emi current probes and injection probes

Special Features:

Window diameter: 1.25 in; zt ohms: 1-5; frequency range: 10 khz-500 mhz; current probes required by various emi specifications (mil-std-461/2) are toroidal transformers designed to measure r.F. Currents on active power lines or other conductors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
