Overall Depth:

23.680 inches

Overall Height:

16.120 inches

Overall Width:

17.380 inches

End Application:

Vdats

Special Features:

Power supply protection from: overvoltage, undervoltage, overcurrent, undercurrent, overtemp, short to ground, short between rails; has diagnostic connector to verify power supply voltage, current, and specific vxi signals; has dual fan settings (lo/hi); this is a 9u chassis with option (12) rack ears and quick disconnect slides and hinged tinted acrylic door; option (21) increases height of basic cable tray by 1u making the chassis height 10u; power requirements: 90.0 to 250vac, frequency 45hz to 440hz at 120vac, 45hz to 66hz at 230vac; inrush current 70amp, input current 15a at 90vac, 8a at 207vac; power supply, fan, air filters, and monitor system can be changed from the rear of the rack

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
