Special Features:

leee-488 gpib via atc-1400a; air-to-air, ground-to-air and inverse modes of operation; provides taca bearing and dme simulation; programmable air-to-air interrogation rate; variable 15hz and 135hz modulation; 15 to -135hz phase shift selection; simulated bearing selection and display; programmable bearing/rate selection; identifies air-to-air replies from uut; 220vac operation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
