**Ac Voltage Rating:**

120.0 volts

**Dc Voltage Rating:**

250.0 volts

**Frequency Rating:**

50.0 hertz

**Depth:**

11.000 inches

**Electrical Power Source Relationship:**

Operating

**Test Type For Which Designed:**

Determines condition of lead acid and nicd batteries on line

**Operating Test Capability:**

To 2500 ah

**Height:**

7.000 inches

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T228-a
