End Application:

C-17a support equipment

Container Type:

Bag

Product Name:

Kit, wire test

Special Features:

Contains (2) female bnc to grabber; (2) female bnc to alligator; (4) female bnc to 20awg; (2) female bnc to bannana plug, contains (1) each 22 gauge; 20 gauge; 16 gauge and 12 gauge socket test adapter, contains (1) each 22 gauge; 20 gauge; 16 gauge and 12 gauge pin test adapter, (1) insulated alligator clip; (1) male bnc to bannana plug; (1) male to male bnc; (1) black retractable test lead; (1) red retractable test lead, operating temperature range is -40 degrees far to 125 degrees far

Functional Description:

Allows user to make physical connections to electrical/electronic circuits in a safe manner

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
