End Application:
C-17a support equipment
Container Type:
Bag
Product Name:
Kit, wire test
Special Features:
Contains (2) female bnc to grabber; (2) female bnc to alligator; (4) female bnc to 20awg; (2) female bnc to bannana plug, contains (1) each
22 gauge; 20 gauge; 16 gauge and 12 gauge socket test adapter, contains (1) each 22 gauge; 20 gauge; 16 gauge and 12 gauge pin tes
adapter, (1) insulated alligator clip; (1) male bnc to bannana plug; (1) male to male bnc; (1) black retractable test lead; (1) red retractable
test lead, operating temperature range is -40 degrees far to 125 degrees far
Functional Description:
Allows user to make physical connections to electrical/electronic circuits in a safe manner
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A23800
