End Application:

Benchtop reconfigurable automatic tester (brat)

Product Name:

32 channel differential ecl input output module

Special Features:

32 inputs and 32 outputs; memory types include stimulus; output; tristate; algorithmic response; expect; mask; algorithmic record; memory depth 1048576 vectors,

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-b
