Circuit Current For Which Designed:

Ac and dc

Overall Length:

348.3 millimeters

End Application:

Nicbm

Indicator Type:

Digital display

Installation Design:

Rack

Background Color:

Black single indicator all ranges

Power Source:

External

Display Type:

Light emitting diode

Display Digit Quantity:

6.5

Accuracy Rating:

0.06 single indicator 2nd range

Display Color:

Green, light single indicator all ranges

Circuit Attachment Method And Quantity:

5 jack tip

Operating Voltage Rating In Volts:

Between 100.0 ac and 240.0 ac

Interface Compatibility:

ieee-488 and rs-232-c

Phase:

Single

Functional Classification:

Aa-1.4

Special Features:

Option (aba) english language manuals, option (1cm) rackmount kit p/n 5063-9240

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A310a0
