**Circuit Current For Which Designed:**

Ac and dc

**Overall Length:**

348.3 millimeters

**End Application:**

Nicbm

**Indicator Type:**

Digital display

**Installation Design:**

Rack

**Background Color:**

Black single indicator all ranges

**Power Source:**

External

**Display Type:**

Light emitting diode

**Display Digit Quantity:**

6.5

**Accuracy Rating:**

0.06 single indicator 2nd range

**Display Color:**

Green, light single indicator all ranges

**Circuit Attachment Method And Quantity:**

5 jack tip

**Operating Voltage Rating In Volts:**

Between 100.0 ac and 240.0 ac

**Interface Compatibility:**

ieee-488 and rs-232-c

**Phase:**

Single

**Functional Classification:**

Aa-1.4

**Special Features:**

Option (aba) english language manuals, option (1cm) rackmount kit p/n 5063-9240

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A310a0
