Circuit Current For Which Designed:

Dc

End Application:

Automotive multimeter combo

Indicator Type:

Digital display

Installation Design:

Bench

Power Source:

Internal

Product Name:

Multimeter

Special Features:

Combo kit includes, 88v multimeter, tl224 silicone test leads, ac285 long reach alligator clips, tp220 test probes, rpm 80 inductive rpm pick-up, magnet and strap, 80bk temperature probe, twoautomotive backprobe pins, insulation piercing probe, c800 durable carrying case, holster, 9v battery (installed), getting started manual, and cd with detailed manual

Style Designator:

Portable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
