Unit Type:

Vertical plug-in

Special Features:

Rf controller module used in the atti brat system, frequency up/down conversion 1-18 ghz, power amplification 0.01-18 ghz, high resolution differential phase signal and signal+noise generator, signal routing and 2-slot width parameters available

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-b
