End Application:

Refrigerator morgue

Internal Battery Accommodation:

Not included

Indicator Type:

Light

Design Type:

Visual

Input Signal Frequency Rating:

50.0 hertz and 60.0 hertz

Product Name:

Inavy-control, power monitor

Phase:

Three

Special Features:

190- to 600 vac 50/60 hertz. Universal input voltage range (does not require range plugs, jumpers or switches.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T263-e
