End Application:

6625-01-497-3013, end item name test station, electrical electronic

Product Name:

Autotester

Special Features:

Check the performance of systems, subsystems, and microwave components such as amplifiers, directional couplers, attenuators, filters, splitters, and terminations

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
