End Application:

Reverse osmosis water purification unit, 1500 gal

Presentation Type:

Digital display

Display Type:

Liquid crystal

Display Digit Quantity:

5

Product Name:

Panel interface device

Special Features:

Indicator displays a process variable of 0 to 100 with input process signal of 4 to 20 milliamp

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A532n0
