Overall Height:

3.300 inches

Overall Width:

3.000 inches

Product Name:

Wideband power standards (terminating)

Special Features:

Rf power primary transfer standard, temperature stabilized coaxial thermistor, terminating: 100khz to 4.2 ghz, type "n" connection; "a" suffix denotes a common mode choke being added to reduce leakage of rf signal through the thermistor mounts into the dc substitution circuits

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
