**End Application:**

An/gyq-79a (cmbre plus)

**Component Quantity:**

16

**Component Document Origin:**

Industrial

**Document Source:**

06424

**Document Type:**

Industrial drawing

**Component Document Page Number:**

1

**Document Identification:**

3005537

**Functional Classification:**

Dd-2.2

**Special Features:**

This is for fms aim-120 only; the adu-89 (v)3/e adapter group is used to interface the aim-120 with the cmbre plus, it supports reprogramming or built in test with missile either in or out of containers. Consists of (2) transit cases. Case one contains switch box assembly and one pcmcia self-test memory card and a loop-back plug. Case two contains (5) aim-120 interface cables: (3005865, 3006045, 3006046, 3005907 and 3006047. Requires 28 vdc 10 amps max; 115 vac 3 phase 400 hz, 10 amp maximum per phase.

**Functional Description:**

Adapter group to support built-in-test (bit) and reprogramming of the uut's operational flight programs (ofps) for up to four aim-120. Used in conjunction with the cmbre plus (an/gyq/79a) to convert the single port cmbre plus to 4 output interfaces either simultaneously or sequentially.

**Entry Date:**

08-02-20

**Reference Data And Literature:**

Dd61 usaf-2007-0057-005-005

**Relationship To Similar Equipment:**

Adu-89 (v) 1/e but without aim-9x cables: 3006094, 300844-2, 300845-2, 3006150 and 300847-2

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fiig:**
